Please read the following before continuing:

Due to Bosch's central directives, it is mandatory to test every EDI connection before going live. Therefore, we have to exchange test data first. Please fill in the parameters for your productive environment below.

In case you have a separate test environment please fill out this sheet twice or contact us for further instructions.

① Our preferred EDI protocol is **OFTP2**.

① We want to ensure that you stay informed about important updates regarding our services. We will be sending you emails that include information about certificate changes, security updates and other activities.

Please note: These emails will come from **edi-info@mailing.bosch.com**

To ensure you receive our emails, please add this address to your safe sender list. This will help prevent our messages from being marked as spam.
